45 Franklin Street, Floor 5 Boston, MA 02110

May 17, 2024 #MAB230011.01

# PROJECT NARRATIVE & FINDINGS

### **MBTA 3A Criteria:**

Bohler is providing technical assistance to the Town of Marblehead to achieve compliance with Section 3A of MGL c. 40A under the Commonwealth of Massachusetts, Department of Housing and Community Development (DHCD), now the Executive Office of Housing and Livable Communities (EOHLC), issued August 10, 2022, and revised August 17, 2023. Section 3A outlines compliance for an MBTA community as having a zoning by-law that provides at least 1 district of reasonable size in which multi-family housing can be permitted as of right. A district of reasonable size is outlined as having a minimum gross density of 15 units per acre, and have a minimum area located within an 0.5-mile radius from a commuter station, subway station, ferry terminal or bus station, if applicable, and no restrictions on age, and suitable for families with children.

For more information on the requirements related to Section 3A, please visit: <a href="https://www.mass.gov/info-details/multi-family-zoning-requirement-for-mbta-communities">https://www.mass.gov/info-details/multi-family-zoning-requirement-for-mbta-communities</a>

EOHLC has released a "compliance model" to calculate compliance within the municipality that was used in this report and is included as an attachment.

### **Components of Analysis:**

The compliance model was used to analyze the proposed zoning district for compliance. The compliance model was broken out into a GIS component and Excel component. The 3A guidelines for both are outlined below:

# Geographic Information System (GIS):

### District Contiguity

At least half of compliant multi-family zoning district must comprise of contiguous lots of land, and no portion of a district that is fewer than 5 contiguous acres will count towards the minimum size requirement. If the unit capacity and gross density requirements can be achieved in a district of fewer than 5 acres, the district must consist of entirely contiguous lots.

# o Unit Capacity

Through the GIS modeling, sensitive and contiguous lands are included. Both sensitive and excluded land counts towards the districts total acreage but only sensitive land can be modeled for unit capacity. EOHLC, formerly DHCD, prepared GIS files which included the total amount of sensitive and excluded land on each parcel.

# Sensitive lands

- Wellhead Protection Areas (Zone II and Interim Wellhead Protection Areas)
- Special Flood Hazard Areas (A or V Flood Zones)
- Active Farmland
- Priority Habitats of Rare Species
- Surface Water Protection Zones B and C

## Excluded land

- Hydrological features
- Protected/open space
- Wellhead Protection Areas (Zone I)
- Title V setbacks and Surface Water Protection Zone A Right of Way
- Most public land, except certain types

### o Gross density

"Gross density" is defined as "a units-per-acre density measurement that includes lands occupied by public rights-of-way and any recreational, civic, commercial, and other nonresidential uses." Some of these types of land are excluded from unit capacity calculations. However, according to the Zoning Act's definition of "gross density," public rights of way, public and institutional land, and restricted open spaces must be counted towards a district's total acreage when calculating units per acre. The Commonwealth has prepared a GIS shapefile which includes all lands that respect this definition.

### Excel

# Zoning Checklist

The municipality's basic zoning requirements and standards for the districts that are being analyzed.

# Multi-family Housing Conditions

Consists of any specific conditions that would prevent as-of-right multi-family development, and includes the following:

- Age restrictions
- Limitations on size of the unit
- Restrictions to studio, 1-bed, or 2-bedroom units
- Limitations on size of the bedroom
- Restrictions on number of occupants
- A requirement for a commercial ground floor
- A requirement for mixed-use on any floor
- Specific Inclusionary Zoning requirements or
- 40R requirements

More information on specific compliance guidelines can be found here:

https://www.mass.gov/doc/compliance-guidelines-for-multi-family-zoning-districts-under-section-3a-of-the-zoning-act/download

### **Marblehead Criteria:**

Under Section 3A of MGL. c. 40A, the Town of Marblehead is considered an Adjacent Community. An Adjacent Community is defined under 3A as an MBTA community that (i) has within its boundaries less than 100 acres of developable station area, and (ii) is not an adjacent small town. Adjacent Communities are required to achieve compliance by December 31, 2024.

The Town of Marblehead has 8,965 housing units per the 2020 census and a required minimum of 897 multi-family units for compliance. A total of twenty-seven (27) acres of land area is required for compliance. Marblehead does not have a Developable Station area (half-mile radius around the MBTA commuter rail station, rapid transit, or ferry terminal).

### **Proposed Districts and Compliance Model Findings:**

Bohler, working in conjunction with the Town of Marblehead Planning Department, and Planning Board Chairman, has identified three (3) subdistricts which together, create their MBTA Communities Multi-Family Overlay District (MCMOD) in order to achieve compliance. The sub-district areas were chosen based on initial community feedback, and working sessions offered by the Town Planner. These areas were then refined through virtual meetings with the Town Planner and Planning Board and were ran through the Compliance model for further refinement through zoning parameters. The refined areas were then presented to the community in a Community Engagement session. These areas were well received and therefore finalized for the Town's warrant submission for their Spring Town Meeting.

The first of the three sub-districts, making up 50% of the overall district overlay area at 29.8 acres, is located just north of Marblehead's downtown area and designated as the Tioga Way District. The second sub-district, the Pleasant Street District, is located in Marblehead's downtown area and proximate to their bus route. This sub-district contains 20.6 acres. The third and last sub-district, the Broughton Road District, is just south of Marblehead's downtown area and contains 8.0 acres. Included in Appendix A are map exhibits showing each of these sub-districts. The compliance model showing the proposed zoning parameters of each sub-district and overall results has been included in Appendix B. A summary of these results is reflected in **Table 1** below.

**Table 1: Compliance Model Results Summary** 

	MCMOD 1 Tioga Way District	MCMOD 2 Pleasant St District	MCMOD 3 Broughton Road District	<u>Totals</u>
District Size (acres)	29.8	20.6	8.0	58.4
Final Unit Capacity Per District	483	295	119	897
Density (units/acre)	17.3	14.3	14.9	15.9

# **Conclusion:**

As a result of this analysis, the following parameters must be applied to the as of right multi-family overlay district:

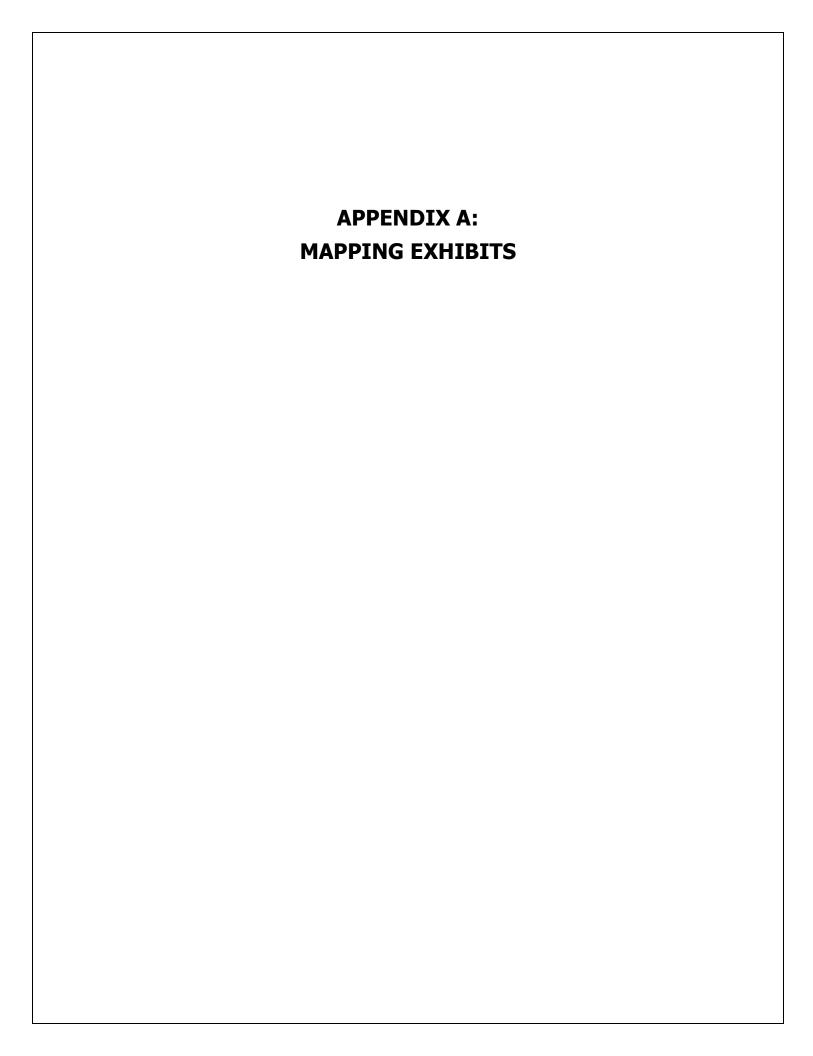

- The max allowed density by right must be 20 units/acre within each sub-district.
- The minimum lot size requirement must be 6,000 s.f. within the Tioga Way District, 5,400 s.f. within the Pleasant St District, and 7,500 s.f. within the Broughton Road District.
- The open space requirement has been reduced from 1 s.f. for each 1 s.f. of gross floor area to 1 s.f. for each 50 s.f. of gross floor area.

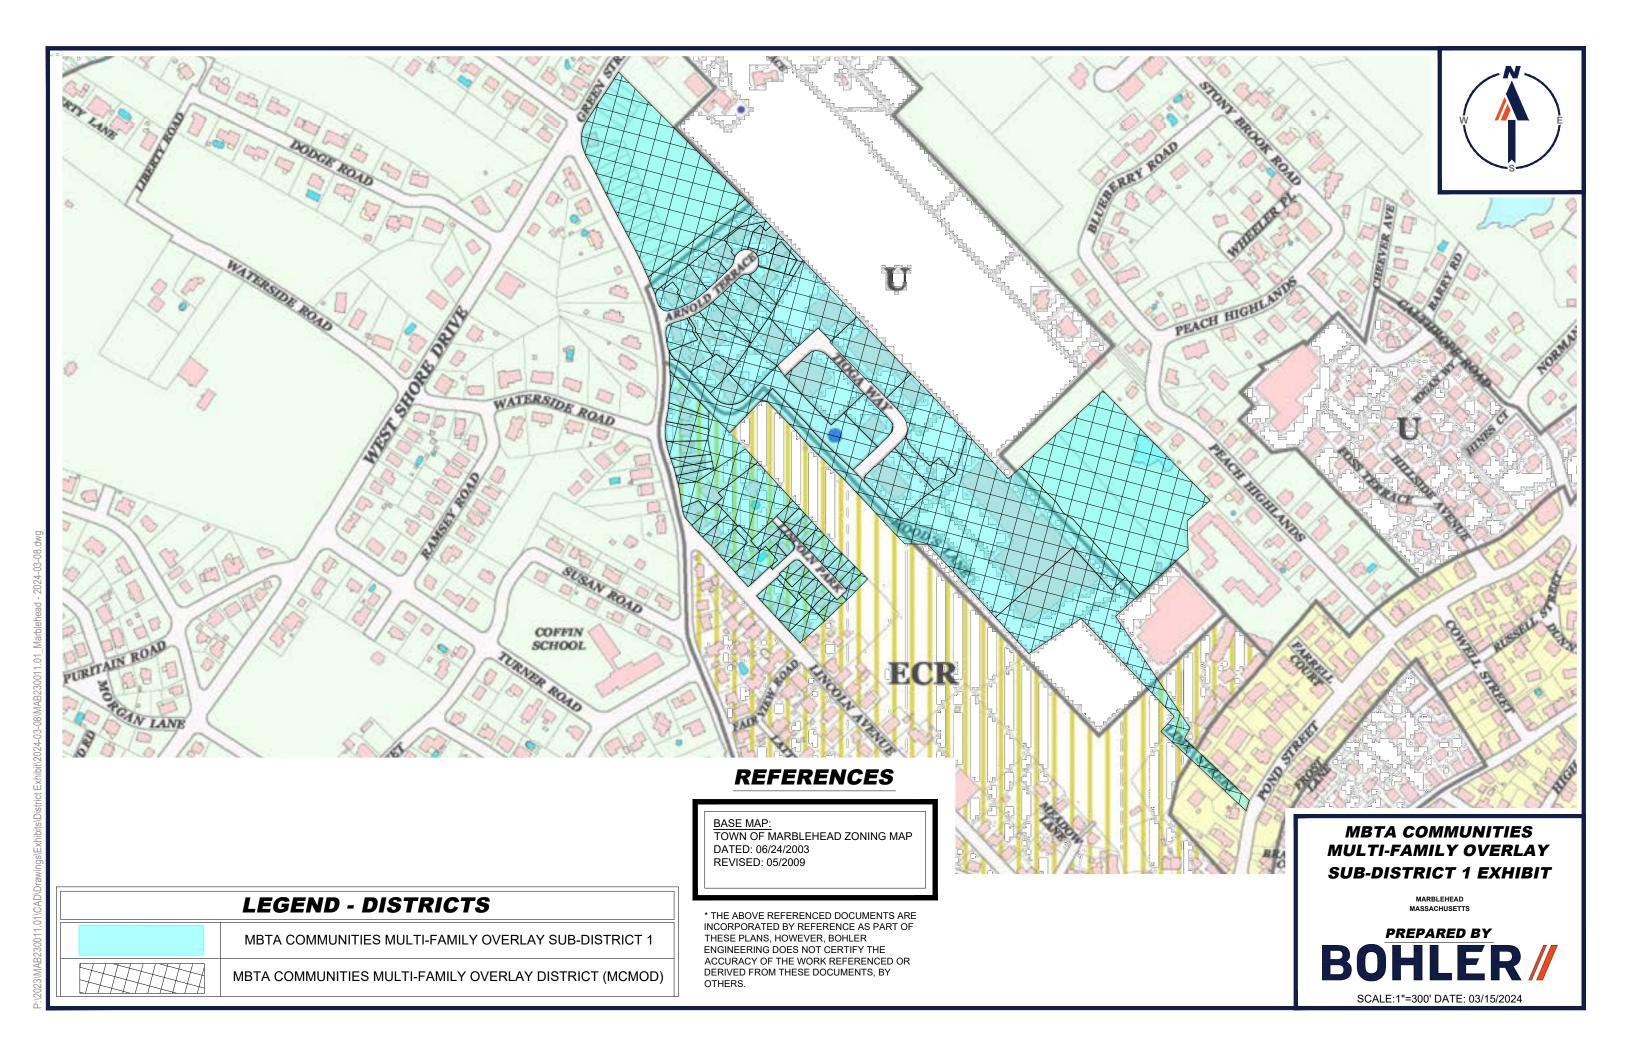

Per the above contemplated Zoning revisions, the overlay districts will provide a total of 58.4 acres for as of right multi-family housing, with a total of 897potential dwelling units and overall average density of 15.9 units/acre.

This analysis relies on zoning information supplied by the Town of Marblehead. Representatives from the Town have reviewed the analysis to confirm the interpretation of zoning and any other assumptions made in the Compliance Model.

## Next steps:

Marblehead has successfully submitted their Pre-Adoption Review Application EOHLC for review and feedback on the proposed zoning and await their comments back to continue their path Toward Compliance. Unfortunately, the community did not support the MBTA Zoning Amendment at their Spring Town Meeting on May 7, 2024, and the Town plans to present the article again at a Special Town meeting later in the year.

Address:	45 Franklin St, 5th Floor, Boston, MA 02110

- \* Minimum multi-family unit capacity for most communities will be based on the 2020 housing stock and the applicable percentage for that municipality's community type. In some cases, the minimum unit capacity is derived from an extrapolation of the required minimum land area multiplied by the statutory minimum gross density of 15 dwelling units per acre. In cases where the required unit capacity from these two methods would exceed 25% of the community's housing stock, the required unit capacity has instead been capped at that 25% level.
- \*\* Minimum land area is 50 acres for all communities in the rapid transit, commuter rail and adjacent community types. There is no minimum land area requirement for adjacent small towns. Where 50 acres exceeds 1.5% of the developable land area in a town, a cap has been instituted that sets minimum land area to 1.5% of developable land area in the town.
- \*\*\* Developable station area is derived by taking the area of a half-mile circle around an MBTA commuter rail station, rapid transit station, or ferry terminal and removing any areas comprised of excluded land.

#### Table 1. Existing Zoning Districts

Does your municipality have one or more zoning districts within a 0.5-mile radius of a...

Transit Center Type	Y/N	If yes, list name of district(s)
Commuter rail station?		
Subway station?		
Ferry terminal?		
Bus station?		
Not applicable - my community is an Adjacent	Υ	
Community or Adjacent Small Town and no part of our		
community is within a 0.5-mile radius of an existing		
transit center type in another community.		

INFO: We ask about multiple transit centers because your multiplicipality may have more than one, or may have land within a half-mile of another community's transit center. A yes to this question allows you to consider several geographic areas for your Multifamily District. Check the definitions of these terms in the Guidelines to make sure you comply!

#### Table 2. Existing Overlay Districts

Does your municipality have one or more overlay districts applicable to the 0.5-mile radius from a...

Transit Center	Y/N	If yes, list name of district(s)
Commuter rail station?		
Subway station?		
Ferry terminal?		
Bus station?		
Not applicable - my community is an Adjacent Community or Adjacent Small Town and no part of our community is within a 0.5-mile radius of an existing transit center type in another community.	Υ	

INFO: One way to comply with Section 3A of MGL c. 40A is to use an overlay district, so it is important to consider whether one of your existing overlay districts is in compliance with the regulations.

### Table 3. Other Overlay Districts that Control Development

Do any of the following district types apply to the zoning districts listed above?

District Type		Y/N	If yes, identify restrictions on building footprints, building height, or number of dwelling units allowed.
Wetlands Overlay District	Υ		
Floodplain Overlay District	Υ		
Water Conservation/Wellhead Protection Area	N		
Designated Port Area	N		
Other			
List district name in the second column, along with any restrictions.			
Does your municipality allow restricted areas (for example, no-build wetland buffers or surface water) to be included in the required minimum open space?	Υ		
If your municipality does not have a minimum open space requirement, please enter N.	_		

INFO: Excluded land and Sensitive land are defined in the Compliance Guidelines for Multi-family Zoning Districts, released by DHCD on August 10, 2022. The overlay types in this question are related to those definitions. If your municipality has other restrictions on development based on physical conditions, for example, steep slopes or soil types, please enter those under Other.

#### Table 4. Acreage Calculations

Table 4 should include only the zoning district(s) you are testing for compliance with the guidelines. Use the shapefiles you drew for your district (from GIS) to calculate the number of acres in each district, and enter the name of the district and the associated data for that district in the table below. The numbers should come from GIS.

CAUTION: If your zoning district(s) have subdistricts with different dimensional requirements for residential uses, you may want to want to create a district for each subdistrict in this table. If you have more than five districts/subdistricts to test, then open a new workbook.

						= or > Required	
		Number of				Minimum Land Area	? = or > 5 Acres?

INFO: You car existing zonir zoning distric the Model By

CAUTION: Contiguity, check: At least half of the multi-family zoning district land areas must comprise contiguous lots of land. No portion of the district that is less than 5 contiguous acres land wi

Υ

Are any of these districts non-contiguous (i.e. the boundaries do not touch any other district)? Enter Y or N.

CAUTION: Station Area Check. If the current zoning district(s) do not meet the location or area criteria, you may be able to create an overlay district that includes other areas of your municipality However, pay attention to the percentage of land within station area. This is applied to both the number of acres and the number of units. This checklist has completed the calculations for you.

When your complete the model compare the number of in the station area with the number above.

Minimum Land Area x Percent of Land within the Station Area = Total Acres within station area Difference (if this is positive, then you do not have enough acres within the station area to comply.)

0.00 =Required minimum number of acres in the station area.
0.00
0.00

Minimum Multi-family Unit Capacity x Percent of Unit capacity within the Station Area =

0 =Required minimum number of units in the station area.

GO: Proceed to Step 2 in the Checklist - District Uses tab

#### Table 5. Multi-family Housing Permissions

Evaluate the districts you identified in Table 4 in the District ID Tab for compliance with the requirement for multi-family as of right in M.G.L. Chapter 40A, Section 3A. Make the appropriate choice for each district under Approval Process below.

District Name	Approval Process
MCMOD 1 (Tioga Way)	GO: This district allows multifamily with site plan review only.
MCMOD 2 (Pleasant St)	GO: This district allows multifamily with site plan review only.
MCMOD 3 (Broughton)	GO: This district allows multifamily with site plan review only.
0	
0	

INFO: This table tests whether multifamily is allowed as of right or with restrictions related to the permitting process.

Table 6 tests whether the zoning contains

additional restrictions that may have a neg impact on compliance.

STOP: Do you have any answers marked "STOP"? Your community will need to make some zoning changes to allow multi-family as of right. You can keep testing the district(s) in Table 6 to see what else you need to modify.

CAUTION: Do you have any answers marked "CAUTION"? If so, you may need to make one or more modifications, depending on your answers to Table 6.

D: Do you have any answers marked "GO"? Proceed to Table 6 to check other restrictions.

#### Table 6. Multi-family Housing Conditions

Evaluate the districts you identified in Table 5 for additional restrictions.

INFO: These restrictions will not change the compliance model, but may restrict your municipality's ability to comply with M.G.L. Chapter 40A, Section 3A and the associated regulations from DHCD. The district names will continue to flow through from the District D tab.

District Name	Restricted by Age (Y/N)	Limitations on the size of unit (Y/N)	Restricted to Studio, 1- sedroom, or 2-bedroom units (Y/N)		Restrictions on the number of occupants (Y/N)	Required commercial ("active") ground floor (Y/N)	Required mixed use (any floor) (Y/N)	Inclusionary Zoning in the District? ### ZONING INPUTS - DISTRICT 3

	(Broughton)

• II II • • • • • • • • • • • • • • • •	
Model Inputs for Calculating Unit Yield	Input
Minimum Lot Size	7,500
Additional Lot Square Feet per Dwelling Unit	0
Open Space %	0%
Excluded Land Counted Toward Open Space	Υ
Parking Spaces per Dwelling Unit	2.00
Building Height	3
Maximum Lot Coverage %	0%
Floor Area Ratio	0.00
Zoning Restrictions that Cap Unit Counts	Input
Lot Area per Dwelling Unit	0
Maximum Dwelling Units per Acre	20.00
Cap on Maximum Dwelling Units per District	0.00

INFO: All information on this sheet comes from the Checklist Parameters tab and provides the model user with a summary of zoning inputs for each district being tested. You DO NOT need to enter any information in this tab. MBTA District Calculations
