PRESS RELEASE

Republic Services should have finished collecting trash for Thursday's route and will begin Friday's route tomorrow. They will continue to work on Saturday if needed. They are concentrating on **Trash removal**, please remove recycling from the street until further notice. We will continue to give the missed street list to Republic Services daily. Drivers begin each day collecting any missed streets from the prior days and then continue to work on weekly collection. If your trash is not collected, please leave it out.

The transfer station will continue to be open to all residents for curbside trash and recycling, stickers are not required at this time. We recommend using the transfer station if possible. Please remember that the residential entrance is now off Green Street. They are closed from 12-1. The Swap Shop will remain closed during the strike.

We apologize for the inconvenience and difficulties this situation is causing. We appreciate your support and patience during this challenging time as daily routes are taking longer than expected.
