**Road Preventative Maintenance 2025**

**Crack Sealing**

**Beginning Monday, October 20, 2025**

From: Department of Public Works

Date: October 17, 2025

Town contractor, **indus inc**, will begin crack sealing operations on various Town roadways **beginning on Monday, October 20, 2025, at 7 am**. This routine maintenance prevents road damage and extends pavement life.

**ALL WORK IS WEATHER DEPENDENT AND SUBJECT TO CHANGE.**

- **Follow the direction of police detail officers.**
- **Temporary lane narrowing expected during operations.**
- **Avoid driving immediately behind crews**  
*(freshly applied crack seal may take 5-10 minutes to fully cure).*

**Crack sealing** is a cost-effective method to seal cracks in existing pavement, preventing water intrusion, and other damage to pavement. This process slows asphalt deterioration and **helps public roadways last longer.**

*This roadway maintenance project is funded through the Massachusetts Chapter 90 Program.*
